

Educational Researcher Job Description

Goshen Education Consulting, Inc. is searching for a full-time researcher to support STEM education evaluation with university clients. This is a full-time, exempt position preferably based in the St. Louis metropolitan area. Full-time remote candidates will be considered. We offer medical benefits, a SIMPLE IRA retirement plan, dedicated funding to professional development, a generous number of paid holidays, paid time off, and other benefits.

Salary Range: \$50,000–\$65,000 annual salary, depending on experience.

About Goshen Education Consulting, Inc.

Goshen Education Consulting is an educational research focused consulting firm with \$1.2 million in annual revenues and a staff of eight. The team at Goshen Education Consulting currently manages 25 STEM evaluation, data support, and implementation programs that include National Science Foundation (e.g., S-STEM, Noyce, STEM+C, ADVANCE), Department of Defense (DoDEA, NDEP), and US Department of Education (HSI). We live by the four principles of Integrity, Locality, Clarity, and Sustainability, which guides our work. The team is actively involved with the American Evaluation Association, the Evaluation Association of St. Louis, and is committed to professional development.

Researcher Responsibilities

This position will have responsibility for managing research projects, deliverables, and direct client coordination. This individual may have responsibility for managing junior staff and graduate research staff.

Roles and responsibilities will include:

- Develop logic models
- Develop evaluation plans
- Gather, clean, and analyze quantitative and qualitative data
- Write annual/summative reports
- Provide statistical analysis and/or modeling
- Host meetings with clients
- Pursue new work/clients

Requirements:

- A Master's degree or equivalent experience is required.
- 2+ years of experience in program evaluation and/or in working in an educational setting
- Technology skills that meet today's workforce demands (Microsoft Office, Google Suite, Web conferencing, etc.)
- Demonstrated organizational and time-management skills

- Experience working effectively in a collaborative team environment
- Facilitation skills, including the ability to support teams in interpreting, analyzing, and making meaning of data
- The ability to work productively in a remote setting
- Time management skills with ability to managing multiple concurrent demands from clients, co-workers, and others

How to Apply:

Please send your resume/CV and a letter of interest directly to Dr. Matt Feldmann through email, matt@gosheneducationconsulting.com.
